How can you make God a part of your life everyday?

Moses was the baby who floated down the Nile River and was picked up by the Pharaoh's daughter. He was the man who talked to God in the burning bush.

He was the leader of the Israelites after they left Egypt. He led the people through the desert, and he received the 10 Commandments from God. But, Moses eventually got old and died.

Let's pretend:

Your little sister took your toy. Should you hit her? Should you talk to her? Should you tell your parents? Before you do anything, you should stop and think about what God would want you to do.

Joshua said that the people need to choose to make God the center of their lives. He said they needed to think about God when they made any choices.
